

CURRICULUM VITAE

Marni D. Boppart, Sc.D.

University of Illinois at Urbana-Champaign
Department of Kinesiology & Community Health
College of Applied Health Sciences
Carle Illinois College of Medicine
Beckman Institute for Advanced Science & Technology
405 North Mathews Avenue, Urbana, IL 61801
Phone: (217) 244-1459
FAX: (217) 244-1995
Email: mboppart@illinois.edu
Lab Website: <http://mmp.beckman.illinois.edu>

Updated May 2020

EDUCATION

- 2000** Sc.D., Boston University, Applied Anatomy and Physiology,
Mentors: Roger A. Fielding, Ph.D.; Laurie J. Goodyear, Ph.D.
- 1996** M.S., Creighton University, Cell Biology,
Mentor: Diane M. Cullen, Ph.D.
- 1992** B.S., University of New Hampshire, Molecular, Cellular and Developmental Biology,
Research Advisor: Gale B. Carey, Ph.D.

PROFESSIONAL EXPERIENCE

- 2020-present **Professor**
Department of Kinesiology and Community Health
Beckman Institute for Advanced Science and Technology
University of Illinois at Urbana-Champaign, IL
Faculty, Institute for Genomic Biology, Regenerative Biology & Tissue Engineering
Theme, 2020-present
Affiliate, Department of Cell and Developmental Biology, 2019-present
Faculty, Carle Illinois College of Medicine, Director of Endocrinology, 2017-present
Affiliate, Center for Nutrition, Learning and Memory (CNLM), 2012-2017
Affiliate, Institute for Genomic Biology, Regenerative Biology & Tissue Engineering
Theme, 2010-2020
- 2014-2020 **Associate Professor**
Department of Kinesiology and Community Health
Beckman Institute for Advanced Science and Technology
University of Illinois at Urbana-Champaign, IL
- 2007-2014 **Assistant Professor**
Department of Kinesiology and Community Health
Beckman Institute for Advanced Science and Technology
University of Illinois at Urbana-Champaign, IL
- 2006 **Research Assistant Professor**
Department of Cell and Developmental Biology
University of Illinois at Urbana-Champaign, IL
- 2000-2006 **Postdoctoral Research Associate (Full- and Part-Time Appointments)**

Department of Cell and Developmental Biology
University of Illinois at Urbana-Champaign, IL
Mentor: Stephen J. Kaufman, Ph.D.

- 2000 **Postdoctoral Research Associate**
Joslin Diabetes Center
Harvard Medical School, Boston, MA
Mentor: Laurie J. Goodyear, Ph.D.
- 1997-2000 **Predoctoral Research Associate**
Joslin Diabetes Center
Harvard Medical School, Boston, MA
- 1997-2000 **Teaching Fellow/Instructor**
Sargent College, Department of Health Sciences
Boston University, Boston, MA
Teaching Fellow, 1997
Head Teaching Fellow, 1997-1998
Part-time Instructor, 1998
- 1994-1996 **Research Assistant**
School of Medicine, Department of Biomedical Sciences, Osteoporosis Research Center
Creighton University, Omaha, NE
- 1992-1996 **United States Air Force Officer/Aerospace Physiologist**
Assistant to Major Command Supervisor, Randolph AFB, TX, 1992-1993
Aerospace Physiologist/Instructor, Brooks AFB, TX, 1992-1993
Assistant Unit Chief and Aerospace Physiologist, Offutt AFB, NE, 1993-96

TRAINING AND CERTIFICATIONS

Emergency Medical Technician (EMT) Certification, Mt. Holly, NJ, 1988
USAF Aerospace Physiology Certification, Brooks AFB, TX, 1992
USAF Human Centrifuge Training Course, Brooks AFB, TX, 1992
USAF Accident Investigation Course, Brooks AFB, TX, 1992
USAF Hyperbaric Medicine Certification, Brooks AFB, TX, 1992
USAF Academic Instructor Certification, Brooks AFB, TX, 1992
Life Science Equipment Course, Randolph AFB, TX, 1993
USAF Free Fall Parachuting, USAF Academy, CO 1994
National Board of Diving & Hyperbaric Medical Technology, 1994
Human Factors in Aviation Course, Holloman AFB, NM, 1995
NASA Fatigue Countermeasure Workshop, Moffett Field, CA, 1995

ACADEMIC HONORS AND AWARDS

1988 Selected University Honors Program, University of New Hampshire
1991 Oliver J. Hubbard Summer Research Fellowship, University of New Hampshire
1992 Stephen C. Decasare Award for Community Service, University of New Hampshire
1998 Graduate Student Scholarship, American College of Sports Medicine (ACSM)
1998 National Institutes of Health (NIH) Predoctoral Institutional National Research Service Award (NRSA), Joslin Diabetes Center, Harvard Medical School
1999 Graduate Student Research Competition, Dean's Award (1st prize), Boston University
1999 Graduate Student Scholarship, ACSM
2000 Most Outstanding Doctoral Student, New England ACSM
2001 Student Investigator Award, New England ACSM
2007 Selected Participant, NIA Summer Institute on Aging Research

2008 Arnold O. Beckman Award for Promising Research, UIUC
 2009 New Scholar Award, Ellison Medical Foundation
 2009- Listed Faculty Ranked as Excellent, multiple courses, every semester, UIUC
 2013 Guiding Undergraduate Research Award, College of Applied Health Sciences, UIUC
 2014 Invited Speaker, Campus Insights, UIUC Board of Trustees
 2014 Fellow, American College of Sports Medicine
 2016 Excellence in Undergraduate Teaching, College of Applied Health Sciences, UIUC
 2016 Campus Award for Excellence in Undergraduate Teaching, UIUC
 2016 Arnold O. Beckman Award for Promising Research, UIUC
 2018 Guiding Undergraduate Research Award, College of Applied Health Sciences, UIUC
 2018 MVP Award, Associate Editor, Exercise in Sport Sciences Reviews (ESSR)
 2020 Under Consideration for Fellowship in the American Physiological Society (APS)
 2020 Beckman Institute Vision and Spirit Award
 2020 Campus Distinguished Promotion Award

RESEARCH SUPPORT

Extramural

National Institutes of Health/NIAMS/NIA

R01 AR072735 (PI: Boppart)

07/01/18–06/30/23

Development of a cell-based therapy to improve recovery following immobilization

The goal of this project is to develop novel cell-based therapies to improve recovery of skeletal muscle mass and function in older adults following a period of disuse

Total Costs: \$1,845,934

National Institutes of Health/NINDS

R21 NS104293 (co-PIs: Boppart and Rhodes)

01/15/18–12/31/21

Origins of exercise-brain interaction

The goal of this project is to identify the basis for exercise-induced improvements in neurogenesis and cognition (muscle-brain axis) for the purpose of developing novel therapies to prevent or treat age-related neurodegenerative diseases (Alzheimer's)

Total Costs: \$402,880

National Institutes of Health/NHLBI

R21 HL131469 (PI: Kong)

08/01/16-07/31/20

Development of a liposomal nanostimulator to improve stem cell-based revascularization therapies

The goal of this project is to develop a biomaterial that will improve stem/stromal cell viability post-transplantation

Total Costs: \$428,484

Role: Co-Investigator

Nordic Naturals, Inc.

C2344 (PI: Boppart)

04/16/17-11/30/17

Evaluation of EPA/DHA supplementation on the myopathic effects of cholesterol lowering agents

The goal of this project was to examine the impact of different ratios of EPA and DHA on mitigating statin-induced myopathy using in the ApoE^{-/-} mouse model

Total Costs: \$90,652

National Institutes of Health/NIAMS/NIA

R21 AR065578 (PI: Boppart)

07/01/14–06/30/17

Alpha7 integrin-mediated hypertrophic signaling and growth in skeletal muscle

The goal of this project was to establish the $\alpha 7$ integrin is an intrinsic regulator of skeletal muscle growth and determine the extent to which integrin signaling is defective with age

Total Costs: \$417,753

Diabetic Complications Consortium Pilot and Feasibility Program**Seed Grant Program (PI: Dobrucki)**

07/01/13–06/30/14

Molecular imaging of stem cell induced reversal of vascular complications in diabetes mellitus

The goal of this project was to evaluate the capacity for muscle-derived mesenchymal stem cells to revitalize vascular structure and function in diabetic mice following ischemia

Role: Co-Investigator

Total Costs: \$159,518

National Institutes of Health/NIAMS**R21 AR06331 (PI: Harley)**

07/01/13–06/30/16

Patterning instructive biomolecular cues into collagen scaffolds for tendon insertion regeneration

The goal of this project was to utilize a prototype biphasic biomaterial to instruct mesenchymal stem cell differentiation in a murine model

Role: Co-Investigator

Total Costs: \$422,583

Center for Nutrition, Learning and Memory/Abbott Nutrition**CNLM ZA68 (PI: Boppart)**

05/16/12–12/15/16

Nutritional enhancement of cognition through stem cells

The goal of this project was to examine the impact of the leucine metabolite HMB on healthspan in

mice (skeletal muscle mass & function, cognition) and identify the cellular basis for benefits

Total Costs: \$600,000

National Science Foundation**NSF CBET 10-33906 (PI: S. Boppart)**

09/01/10–08/31/13

Advanced optical imaging of 3-D cell dynamics in engineered skin

My role in this project was to isolate bone marrow-derived mesenchymal stem cells for the purpose of determining their role in process of skin healing

Role: Co-Investigator

Total Costs: \$600,000

National Science Foundation**IGERT (23 UIUC Faculty)**

01/01/11–12/31/13

Cellular & Molecular Mechanics and Bio-Nanotechnology (CMMB)

This grant developed an Integrative Graduate Education and Research Traineeship (IGERT) program to support graduate students in the study of cellular mechanotransduction in collaboration with the University of Illinois Center for Cellular Biomechanics

Total Costs: \$3,200,000

National Institutes of Health**S10 (PI: William O'Brien)**

2009

High-resolution in vivo ultrasound imaging using VisualSonics VEVO2100 system

Role: Co-Investigator/Major User

Total Costs: \$499,098

National Science Foundation**Major Instrumentation Grant (PI: S. Boppart)**

2009

Acquisition of a molecular imaging instrument for dynamic material and biological systems (PET)

Role: Major User

Total Costs: \$1,999,997

Ellison Medical Foundation New Scholar Award**AG-NS-0547-09 (PI: Boppart)**

08/16/09–10/18/14

Utilization of $\alpha 7$ integrin-derived stem cells as therapy for the alleviation of sarcopenia

The goal of this project was to determine the extent to which muscle-derived mesenchymal stem cells alleviate age-related muscle pathology in mice.

Total Costs: 400,000

National Science Foundation

NSF CBET 08-52658 (PI: S. Boppart)

08/15/09–07/31/12

3-D optical tracking of bone marrow derived skin stem cells

My role in this project was to isolate bone marrow-derived mesenchymal stem cells for the purpose of determining their role in process of skin healing

Total Costs: \$300,000

Illinois Regenerative Medicine Institute

IDPH 63080016 (Co-PIs: Boppart and Berry)

04/01/06–04/01/09

Therapeutic implementation of mesoangioblast stem cells in muscular dystrophy

The purpose of this project was to develop stem cell-based therapies for the alleviation of pathology in mice with muscular dystrophy

Total Costs: \$367,750

Intramural

Beckman Institute Vision and Spirit Award (PI: Boppart)

2020

Total Costs: \$150,000

Beckman Institute for Advanced Science and Technology (PI: Boppart)

2020

Establishment of an Extracellular Vesicle Research Center to maximize cross-campus collaboration

Total Costs: \$140,000

Center on Health Aging and Disability Pilot Grant (PI: Boppart)

07/01/17–08/01/19

Development of an exosome therapy for optimal treatment of physical and cognitive disabilities

Total Costs: \$30,000

Arnold O. Beckman Award (PI: Boppart)

11/01/16–04/30/18

Development of a stem cell-based therapy to improve recovery following immobilization

Total Costs: \$27,500

UIUC OVCR Equipment Grant (PI: Madak-Ergogan)

2014

All-in-one plate reader/imager for high throughput screening

UIUC OVCR Equipment Grant (PI: S. Boppart)

2014

In vivo 3-D optical and x-ray CT imaging system

Biotechnology Center Fluidigm C1 Single Cell Genomics Grant (PI: Boppart)

2014

Characterization of two types of pericytes in adipose tissue using multicolor flow cytometry and single cell gene expression approaches

Feasibility Study

Center on Health, Aging and Disability Pilot Grant (PI: Boppart)

06/01/11–05/31/13

The impact of hypercholesterolemia and physical activity on statin-associated skeletal muscle myopathy

Total Costs: \$15,000

Arnold O. Beckman Award (PI: Boppart)

01/01/09–05/01/10

Utilization of a novel multipotent stem cell as therapy in the alleviation of sarcopenia

Total Costs: \$20,880

Mary Neer Jane Fund (PI: Boppart)

09/01/09–06/01/10

Utilization of a novel multipotent stem cell as therapy in the alleviation of muscular dystrophy
Total Costs: \$15,000

Beckman Foundation (PI: Boppart)

2008

Bio-Rad ChemiDoc XRS System for high resolution multicolor fluorescent imaging
\$15,882

INVITED LECTURES AND CONFERENCE PRESENTATIONS

35. American College of Sports Medicine Annual Meeting, San Francisco, CA, “Exercise and extracellular vesicles (ExerVs): identification of the molecular basis for health benefits”, May 2020 – canceled due to COVID-19
34. Beckman Institute Director’s Seminar, University of Illinois at Urbana-Champaign, “Exercise and extracellular vesicles (ExerVs): identification of the molecular basis for health benefits”, April 2020 – canceled due to COVID-19
33. Sports Science Section Seminar, School of Public Health, Aarhus University, Aarhus, Denmark, “Extrinsic and intrinsic factors that influence skeletal muscle growth in response to exercise”, March 2020
32. Brown Bag Seminar, Carle-Illinois College of Medicine, “Extracellular vesicles as a means of cellular communication”, July 2019
31. Experimental Biology Annual Meeting, Orlando, FL, “The role of pericytes in repair of skeletal muscle damage”, April 2019
30. UIUC NSF IGERT: Miniature Brain Machinery Seminar Series, University of Illinois at Urbana-Champaign, “Perivascular stem/stromal cell regulation of muscle growth”, October 2018
29. ACSM Integrative Physiology of Exercise Meeting, San Diego, CA, “Integrin regulation of muscle growth”, September 2018
28. American College of Sports Medicine Annual Meeting, Minneapolis, MN, “Focusing outside the fiber: extracellular matrix and skeletal muscle plasticity”, June 2018
27. American College of Sports Medicine Annual Meeting, Minneapolis, MN, “Perivascular stem/stromal cell regulation of muscle growth”, May 2018
26. American College of Sports Medicine Annual Meeting, New England Chapter, Providence, RI, “Perivascular stem cells and skeletal muscle adaptation”, October 2016
25. American College of Sports Medicine Annual Meeting Tutorial, Boston, MA, “Pericytes as mediators of skeletal muscle adaptation”, June 2016

24. Advances in Skeletal Muscle Biology in Health and Disease, University of Florida, Gainesville, FL, “ $\alpha7\beta1$ Integrin regulation of skeletal muscle signaling and growth”, January 2016
23. Colorado State University, Health and Exercise Science Research Seminar Series, “Stem cells and skeletal muscle adaptation to exercise”, November 2015
22. Mayo Clinic, 4th Annual Symposium on Regenerative Rehabilitation, Rochester, MN, “Stem cell transplantation and exercise for muscle repair and adaptation”, September 2015
21. International Society of Sports Nutrition, Austin, TX, “Skeletal muscle repair”, June 2015
20. Texas A & M University, College Station, TX, Exercise Physiology Seminar Series, “Development of a stem cell-based strategy for the prevention of age-related disability”, April 2015
19. Associated Colleges of the Chicago Area (ACCA), Advances in Cell Biology Seminar Series, “Stem cells in skeletal muscle”, April 2015
18. National Institute on Aging, Intramural Research Program Seminar, Baltimore, MD, “Development of a stem cell-based strategy for the prevention of age-related disability”, November 2014
17. ACSM Integrative Physiology of Exercise Meeting, Miami, FL, “Role for non-satellite stem cells in muscle repair and adaptation post-exercise”, September 2014
16. American College of Sports Medicine Annual Meeting, World Congress on Inflammation, Orlando, FL, “Defining a role for mesenchymal stem cells in muscle repair following exercise”, May 2014
15. American College of Sports Medicine Annual Meeting Tutorial, Indianapolis, IN, “Development of stem cell strategies for the prevention of age-related muscle loss”, May 2013
14. American College of Sports Medicine Annual Meeting Symposium, Indianapolis, IN, “Sensing the tension: identification of mechanotransducers that contribute to muscle growth”, May 2013
13. UIUC National Science Foundation (NSF) IGERT: Training the Next Generation of Researchers in Cellular and Molecular Mechanics and BioNanotechnology Seminar, “Development of strategies for the prevention and/or treatment of age-related declines in skeletal muscle function”, April 2013
12. Beijing Sport University Research Symposium, Beijing, China, “Development of strategies for the prevention of age-related muscle loss: what we’ve learned from exercise research”, October 2012
11. Beijing Sport University, Third National Sports Science Laboratory Management and Development Forum, Beijing, China, “Impact of social dynamics on laboratory performance”, October 2012
10. Beckman Institute Director’s Seminar, University of Illinois at Urbana-Champaign, “Development of strategies for the prevention of age-related muscle loss: what we’ve learned from exercise research”, March 2012
9. American College of Sports Medicine Annual Meeting Tutorial, Denver, CO, “Role of stem cells in exercise-induced skeletal muscle adaptations”, June 2011
8. University of Illinois at Chicago, Department of Kinesiology and Nutrition Seminar, Chicago, IL, “Identification of stem cells in skeletal muscle that contribute to growth following exercise”, March 2011
7. American College of Sports Medicine Annual Meeting, Midwest Chapter, Indianapolis, IN, “Does a role exist for non-satellite stem cells in skeletal muscle growth following exercise?”, October 2010

6. Biophotonics Imaging Laboratory Seminar, Beckman Institute for Advanced Science and Technology, University of Illinois at Urbana-Champaign, "Basics of stem cell biology", July 2009
5. University of Western Australia, School of Anatomy and Human Biology, Crawley, Australia, " α 7 Integrin-mediated recruitment of muscle-derived stem cells", June 2008

COLLABORATORS

Justin Rhodes, UIUC, Psychology, Neuroscience Program
 Hyunjoon Kong, UIUC, Chemical and Biomolecular Engineering
 Stephen Boppart, UIUC, Electrical and Computer Engineering & Bioengineering
 Wawrzyniec Dobrucki, UIUC, Bioengineering
 Troy Hornberger, U Wisconsin-Madison, School of Veterinary Medicine, Comparative Biosciences
 Jie Chen, UIUC, Cell and Developmental Biology
 Benjamin Miller, Oklahoma Medical Research Center
 Karyn Hamilton, Colorado State University, Health and Exercise Science
 Christopher Adams, University of Iowa, Molecular Physiology and Biophysics
 Kristian Vissing, Aarhus University, Denmark, Department of Public Health-Sport Science
 Brendan Harley, UIUC, Chemical and Biomolecular Engineering
 Dean Burkin, University of Nevada, Reno, Pharmacology

TEACHING EXPERIENCE

UIUC Courses

- **KIN 450 Exercise Biochemistry**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
 2007-2009: Guest Lecturer, Exercise and Extracellular Matrix
- **KIN 494/470 Exercise Endocrinology**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
 2007-current: Director, new course, 20 students
- **KIN 591 Exercise Physiology Graduate Seminar**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
 2008, 2011, 2012: Director, 20 students
- **KIN 150 Biosciences of Human Movement (Exercise Physiology)**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL,
 2008-current: Director, course modernization/revision, 120 students/semester
- **KIN 594/552, Advanced Skeletal Muscle Physiology**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
 2010-current: Director, new course
- **KIN 594, Advanced Exercise Physiology Laboratory Methods**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
 2010-current: Co-Instructor, assisted new course

- **KIN 565, Teaching in the Professoriate**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
2009: Mentor for Melinda Flegel
2010: Mentor for Melissa Linden
2013: Mentor for Michael Munroe
- **KIN 365, Civic Engagement in Wellness**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
2012: Guest Lecturer, Physical Wellness in Older Adults
- **KIN 451, Skeletal Muscle Physiology**, Department of Kinesiology and Community Health, University of Illinois, Urbana-Champaign, IL
2016-current: Director, 20-30 students

Carle Illinois College of Medicine

- **Co-Director**, Musculoskeletal, 2016
- **Director**, Endocrinology, 2017-current

Courses Previously Taught

- **Undergraduate Teaching Assistant for General Biology**, Department of Biological Sciences, University of New Hampshire, Durham, NH, 1989
- **HS 574 Clinical Exercise Physiology** Department of Health Sciences, Sargent College, Boston University, Boston, MA

US Air Force Teaching Experience

- **Aerospace Physiology Instructor**: United States Air Force, Brooks AFB, San Antonio, TX, 1992-1993, topics: situational awareness, human factors, hypoxia, aircraft evacuation, parasail training.
- **Aerospace Physiology Instructor**: United States Air Force, Offutt AFB, Omaha, NE, 1993-1996; 10-40 military and civilian aviators/class; 2-3 classes/wk, topics: situational awareness, human factors, hypoxia, spatial disorientation, acceleration, G force protection, exercise, nutrition, visual illusions, fatigue, noise protection, thermal stress, hyperbarics.
- **Aerospace Physiology Lecturer**: United States Air Force, Aerospace Physiology Lecturer, 1992-1996; 40-300 military and civilian personnel/lecture, special topics: heat stress, fatigue, exercise, nutrition, visual illusions, fitness testing.

SUPERVISION OF STUDENT RESEARCH

Director of Research – Department of Kinesiology and Community Health

Postdoctoral Fellows and Medical Residents

1. **M. Carmen Valero**, Ph.D., Postdoctoral Fellow/Research Specialist, 2007-2011, conducted research on extracellular matrix interaction with muscle-derived mesenchymal stem cells following mechanical strain, currently employed as Research Scientist, University of Florida
2. **Jianming Liu**, Ph.D., Postdoctoral Fellow, 2007-2008, conducted research on role for $\alpha 7$ integrin in mesenchymal stem cell appearance in skeletal muscle, currently Research Assistant Professor, Children's Hospital, Harvard Medical School
3. **Nadia Nasreen**, M.D. Medical Resident, Carle Hospital, 2008-2010, conducted research on $\alpha 7$ integrin and inflammation, currently Internal Medicine Physician
4. **Michael De Lisio**, Ph.D., Postdoctoral Fellow, 2012-2013, Project Title: Regulation of muscle-derived mesenchymal stem cell function in response to environmental cues, currently Associate Professor, Department of Kinesiology, University of Ottawa

5. **Koyal Garg**, Ph.D., Postdoctoral Fellow, 2014-2016, Project Title: Laminin-111-mediated rejuvenation of aged skeletal muscle, currently Assistant Professor, Department of Biomedical Engineering, Saint Louis University
6. **Anujaianthi Ramakrishnan**, Ph.D., Postdoctoral Fellow, 2019

Graduate Students

1. **Tara Lueders**, M.S., 2009-2010, "The $\alpha7\beta1$ integrin accelerates exercise-induced myogenesis", currently Orthodontist
2. **Kai Zou**, Ph.D., 2009-2013, "Development of novel strategies to improve skeletal muscle repair and adaptation following eccentric exercise", currently Assistant Professor, University of Massachusetts at Boston
3. **Heather Huntsman**, Ph.D., 2010-2014, "Preconditioned muscle-derived mesenchymal stem cells revitalize muscle growth and function in aged skeletal muscle", currently Postdoctoral Fellow, National Institutes of Health, Dr. Andre Larochelle; Lecturer at George Washington University
4. **Ziad Mahmassani**, M.S., 2010-2012, "Investigation of a role for the $\alpha7\beta1$ as a mechanotransducer of hypertrophic signaling in skeletal muscle"
5. **Ziad Mahmassani**, Ph.D., 2012-2017, " $\alpha7\beta1$ Integrin regulation of skeletal muscle growth in response to mechanical stimulation", currently Postdoctoral Fellow, University of Utah Medical Center, Dr. Micah Drummond
6. **Yair Pincu**, Ph.D., 2011-2016, "Adipose-resident pericyte response to high fat diet and exercise", currently Lecturer, Department of Health and Exercise Science, University of Oklahoma
7. **Michael Munroe**, Ph.D., 2013-2017, "Development of a stem cell-based therapy for the recovery of skeletal muscle mass and function following immobilization", currently Postdoctoral Fellow, Washington University, St. Louis, Dr. Luis Batista
8. **Svyatoslav (Slav) Dvoretzkiy**, M.S., 2014-2016, "Skeletal muscle pericyte response to acute and chronic electrical stimulation"
9. **Svyatoslav (Slav) Dvoretzkiy**, Ph.D. Candidate, 2016-current, "Development of a pericyte-derived exosome therapy for the recovery of skeletal muscle mass following immobilization"
10. **Alif Tisha**, M.S., 2016-2018, " $\alpha7\beta1$ Integrin regulation of skeletal muscle growth in response to mechanical stimulation"
11. **Yu-Fu Wu**, Ph.D. Candidate, 2017-current, "Development of a pericyte-based therapy for recovery of aged skeletal muscle following immobilization"
12. **Samuel Lapp**, Ph.D. Candidate, 2018-current, "Optimization of a pericyte therapy to improve muscle recovery following hindlimb immobilization"
13. **Gabriela Garcia**, M.S. Candidate, 2018-current, "Contribution of muscle-resident pericytes to skeletal muscle repair post-injury"

International Visiting Scholars

1. **Ruirui Yang**, Visiting Ph.D. Candidate, Beijing Sport University, China, 2010-2011, "Inhibition of NF- κ B signaling in skeletal muscle by overexpression of the $\alpha7\beta1$ integrin"
2. **Michael De Lisio**, Visiting Ph.D. Candidate, McMaster University, Canada, 2011-2012, "Extracellular matrix regulation of mesenchymal stem cell function in skeletal muscle"
3. **Jean Farup**, Visiting Ph.D. Candidate, Aarhus University, Denmark, 2013, "Evaluation of mesenchymal stem cells in human skeletal muscle following exercise"
4. **Charlotte Coombs**, Visiting Ph.D. Candidate, University of Brighton, United Kingdom, 2017, "Assessment of pericyte mesodermal differentiation capacity"
5. **Georgios Mavropalias**, Visiting Ph.D. Candidate, Edith Cowan University, Australia, 2019, "Assessment of integrin response to eccentric exercise in human skeletal muscle"

Trainee Awards

- 2011 **National Science Foundation IGERT-CMMB Graduate Student Fellowship** (Heather Huntsman)
- 2013 **Finalist in NSF IGERT Competition** (Heather Huntsman)
- 2013 **Caroline tum Suden/Frances Hellebrandt (APS) Award** (Heather Huntsman)
- 2012 **American College of Sports Medicine Foundation Grant** (Kai Zou)
- 2014 **American College of Sports Medicine Foundation Grant** (Yair Pincu)
- 2015 **Beckman Institute Postdoctoral Fellowship** (Michael De Lisio)
- 2016 **Finalist, Glenn/AFAR Scholarship** (Michael Munroe)
- 2017 **UIUC Dissertation Completion Award** (Michael Munroe)
- 2017 **Santander International Fellowship** (Charlotte Coombs)
- 2017 **Taiwan Ministry of Education Scholarship** (Yu-Fu Wu)
- 2018 **American College of Sports Medicine Foundation Grant/NASA Space Physiology** (Svyatoslav Dvoretzkiy)
- 2018 **NIH T32, Tissue Microenvironment (TiMe) Training Program** (Svyatoslav Dvoretzkiy)
- 2018 **School of Medical and Health Sciences Research Collaboration Travel Grant, Edith Cowan University, Australia** (Georgios Mavropalias)
- 2020 **Beckman Institute Postdoctoral Fellowship** (Anujaianthi Ramakrishna)
- 2020 **Finalist, NSF Graduate Fellowship** (Sam Lapp)

Undergraduate Students

Nicole Alexander, Kinesiology & Community Health (KCH), 2005-2007, **HHMI Fellowship**

Ryan McCombs, Molecular & Cellular Biology (MCB), 2007-2008

Dev Sethi, MCB, 2007-2008

Don Lambka, KCH, 2008-2009

Diana Panek, MCB, 2008-2009

Jordan Orr, KCH, 2008-2009

Lauren Reader, MCB, 2009-2010

Megan Abel, Material Science Engineering, 2009-2010

Michael Hagstrom, MCB, 2009-2010

Brian Johnson, KCH, 2009-2011

Cassie Drummond, MCB, 2009-2011

Dan Morgan, MCB, 2010-2011

Nicole Zachwieja, KCH, 2010-2012

Danielle Weech, KCH, 2010-2011

Max Woolf, KCH, 2010-2012

Pauline Ripchik, MCB, 2011-2012, Senior Thesis: Examination of the Arteriogenic Response to Voluntary Wheel Training in Young and Adult Skeletal Muscle (**Honors**)

Joseph Adams, MCB, 2011-2012

Jack Skelton, KCH, 2011-2012, **Duke University Internship**

Bridget Jackson, KCH, 2011-2012

Cody Lindsey, KCH, 2011-2012

Ryan Herring, MCB, 2011-2013

Cameron Baldes, MCB, 2011-2013

Kelly Ryan, MCB, 2012-2013

Zak Kammer, Integrative Biology, 2012-2013, **Honors Program**

Anthony Zhang, KCH, 2012-2013

Eli Khazoum, KCH, 2012-2014

Paul Jung, KCH, 2012-2014, **James Scholar**

Adam Sukiennik, KCH, 2012-2013

Adam Joseph, KCH, 2012-2015, **James Scholar**

Justin Biondo, KCH, 2012-2013

Sabina Cashin, MCB, 2012-2014

Emily Kolyvas, MCB, 2012-2014, Senior Thesis: $\alpha 7$ Integrin, a Potential Therapeutic Target in the Preservation of Skeletal Muscle Repair over the Lifespan (**High Honors**)
 Urvi Khare, KCH, 2012-2014
 Nicole Clevenger, MCB, 2013, **James Scholar**
 Christopher Ng, Integrative Biology, 2013
 Emily Samuel, MCB, 2013
 Harsh Patel, Economics, 2013-2015
 Monica Rossi, MCB, 2013-2014
 Julian Nallabelli, MCB & FSHN (Nutrition), 2013
 Sumin Kim, MCB, 2013
 Shane Shafi, MCB, 2013-2015
 Matt Miller, KCH, 2013-2014
 Dami Olatunbosum, MCB, 2013-2014
 Bianca Mulaikal, KCH, 2013-2014
 Victoria Knauf, KCH, 2013-2015
 Jamey Cooper, MCB, 2013-2014
 Ryan Brander, KCH, 2014-2016
 David Rossi, MCB, 2014-2016
 Kelly Twohig, Chemistry, 2014-2015, **James Scholar, Mayo Clinic Research Fellow**
 Shamil Shafi, Finance, 2014-2015
 Mayand Vakil, MCB, 2014
 Alay Parikh, MCB, 2014-2016, Senior Thesis: Effect of Exercise on Statin-Induced Skeletal Muscle Myopathy (**High Honors**)
 Brittany Cline, MCB, 2014-2015
 Brent Blackwell, KCH, 2015-2018, **James Scholar**
 Garret Waterstradt, KCH, 2016-2018, **James Scholar, Campus Honors Scholar, Mayo Clinic Research Fellow**
 Nisha Karwal, MCB, 2016-2017, **James Scholar**
 Sami Bourjas, KCH, 2016-2017
 Amber Lopez, KCH, 2017-current, **Mayo Clinic Summer Fellow, NIH Postbac IRTA Program**
 Shail Aamir, Chemistry, 2017-2019
 Noah Kim, KCH, 2017-current
 Eric Jung, KCH, 2017-current, **James Scholar, Campus Honors Scholar**
 Megan Kalinowski, KCH, 2018-current, **Campus Honors Scholar**
 Isaac Lee, KCH, 2018-current
 Amanda Tannehill, Integrative Biology, 2018-current
 Daniel Suh, KCH, 2019-current
 Michael Kim, MCB, 2019-current
 Maddie Meehan, 2020-current, **James Scholar**

Research Staff

Dan Morgan, MCB Major, Research Technician, 2010-2011
 Collin Kurtenbach, Bioengineering Major, Research Technician, 2011-2012
 Kevin Urbain, Bioengineering Major, Research Technician, 2012-2013
 Emily Kolyvas, MCB Major, Research Technician, 2013-2014
 Victoria Knauf, KCH Major, Research Technician, 2014-2015
 Brittany Cline, MCB Major, Research Technician, 2015-2016
 Sabit Ejub, MCB Major, Research Technician, 2016-2018

Graduate Student Thesis Committee Service

1. **Cynthia Mann**, Ph.D., Department of Chemical and Biomolecular Engineering, UIUC, 2009, "Applications of traction force microscopy in measuring adhesion molecule dependent cell contractility"
2. **Ben Meador**, Ph.D., KCH, UIUC, 2010, "Statin-associated skeletal muscle damage and its interactions with novel or accustomed exercise: functional and mechanistic assessments"
3. **Yejing Ge**, Ph.D., Department of Cell and Developmental Biology, UIUC, 2011, "Regulation of myocyte fusion in skeletal muscle maturation"
4. **Brandt Pence**, Ph.D., KCH, UIUC, 2012, "Short-term exercise training: Implications for wound healing in obese mice"
5. **Benedikt Graf**, Ph.D., Department of Electrical and Computer Engineering, UIUC, 2012, "Multimodal intravital imaging of tissue structure and cell dynamics in skin using integrated optical coherence and multiphoton microscopy"
6. **Stephen Martin**, Ph.D., KCH, UIUC, 2013, "Effects of voluntary wheel running and forced treadmill running on inflammation-induced behavioral abnormalities in young and old mice"
7. **Marc Cook**, Ph.D., KCH, UIUC, 2013, "Moderate exercise training exacerbates inflammation and mortality in DSS-induced colitis in mice"
8. **Hae Ryong Chung**, Ph.D., KCH, UIUC, 2014, "The impact of hypercholesterolemia and physical activity on statin-associated skeletal muscle myopathy"
9. **Paula Poh**, Ph.D., KCH, UIUC, 2015, "Effects of different thermal stimuli during simulated hemorrhaging on various aspects of cognitive performance"
10. **Rebecca Hortensius**, Ph.D., Bioengineering, UIUC, 2016, "Bioinspired alterations of collagen-glycosaminoglycan scaffolds for tendon regeneration"
11. **William Grier**, Ph.D., Chemical and Biomolecular Engineering, UIUC, 2017, "Enhancement of spatially-controlled MSC responses in a multi-compartment CG scaffold for tendon-bone junction regeneration"
12. **Yi Sun**, Ph.D., KCH, UIUC, 2018, "Effects of exercise on age- and stress-related attenuation of vaccination responses in mice"
13. **Eunice Leong Jiayu**, Ph.D., Chemical and Biomolecular Engineering, UIUC, 2018, "Integrating inflammatory stimuli with macromolecules for sensing and therapy of vascular diseases"
14. **Jamila Hedhli**, Ph.D., Bioengineering, UIUC, 2018, "Non-invasive detection and treatment of diabetes-associated vascular complications"
15. **Joanne Li**, Ph.D., Bioengineering, UIUC, 2018, "Quantitative characterization of cellular dynamics in skin using multimodal multiphoton microscopy"
16. **Noel Naughton**, Ph.D., Mechanical Engineering, UIUC, 2019, "Diffusion-weighted MRI of skeletal muscle: estimation of microstructural parameters"
17. **Peter Sielijacks**, Ph.D., Department of Public Health, Aarhus University, Denmark, 2020, "Effect of blood flow restricted exercise on muscle accretion and function in healthy and clinical settings"
18. **Kevin Stebbings**, Ph.D. Candidate, Neuroscience Program, UIUC, "Redox mechanisms of exercise-induced rescue of decline in neural function with aging"
19. **Dongwook Kim**, Ph.D. Candidate, Cell and Developmental Biology, UIUC, "Skeletal muscle-derived cytokines regulate myogenesis by modulating cell cycle withdrawal"
20. **Georgios Mavropalias**, Ph.D. Candidate, Centre for Exercise and Sports Science Research, School of Medicine and Health Sciences, Edith Cowan University, Australia, "Comparison between high and low-intensity eccentric cycling of equal total volume for muscle and connective tissue damage and adaptations"
21. **Colleen McKenna**, Ph.D. Candidate, Division of Nutritional Sciences, UIUC, "Nutrition and exercise regulation of skeletal muscle function"
22. **Yu-Tong Hong**, Ph.D. Candidate, Chemical and Biomolecular Engineering, UIUC, Dissertation title TBD
23. **Amadeo Salvador**, Ph.D. Candidate, KCH, UIUC, Dissertation title TBD
24. **Tori Barnhouse**, Ph.D. Candidate, Chemical and Biomolecular Engineering, UIUC, Dissertation title TBD

Served as James Scholar Mentor for >40 Additional Undergraduate Students (1-2/semester)

PROFESSIONAL ASSOCIATIONS

1997-current American College of Sports Medicine (ACSM)
 1997-2001 New England Chapter, American College of Sports Medicine
 1997-2002 American Diabetes Association
 2005-current Midwest Chapter, American College of Sports Medicine
 2008-current American Physiological Society
 2008-current International Society for Stem Cell Research (ISSCR)
 2017-current American Heart Association, Council on Peripheral Vascular Disease
 2019-current International Society for Extracellular Vesicles (ISEV)

SERVICE

Editorial Service

2012-2015 Exercise in Sport Sciences Reviews (ESSR), Assistant Editor
 2013-2019 Frontiers in Exercise Physiology, Editorial Board Member
 2015-current Exercise in Sport Sciences Reviews (ESSR), Associate Editor (MVP Award 2018)
 2016-current Invited, F1000 Faculty, Exercise Physiology
 2017-current Journal of Applied Physiology, Associate Editor
 2017-current Translational Sports Medicine, Editorial Board Member

Professional Consultation

2008-2010 Consultant, New Permanent Exhibit, Museum of Science and Industry in Chicago
 2010-2012 Consultant, NASA, ProOrbis, development of the National Laboratory for ISS
 2018 Invited Participant, National Institutes of Health, Strategic Planning Meeting, NIAMS, Muscle Biology & Disease

Grant Review

2009 National Institutes of Health, Musculoskeletal, Oral and Skin Sciences (MOSS) IRG
 2013 Veterans Administration, Aging & Neurodegenerative Diseases
 2014 Telethon Foundation, Italy
 2014 Veterans Administration, Aging & Neurodegenerative Diseases
 2014 Veterans Administration, Aging & Neurodegenerative Diseases
 2015 Veterans Administration, Aging & Neurodegenerative Diseases
 2015 National Institutes of Health, MOSS IRG, SBIR/STTR, Ad hoc
 2015 National Institutes of Health, SMEP (Skeletal Muscle and Exercise Physiology) Study Section, Ad hoc
 2016 National Institutes of Health, SMEP Study Section, Ad hoc
 2017 National Institutes of Health, SMEP Study Section, Ad hoc
 2017 National Institutes of Health, MOSS IRG, Director's New Innovator Award, Ad hoc
 2019 National Institutes of Health, CMAD (Cellular Mechanisms in Aging and Development) Study Section, Ad hoc (Nominated for regular membership 2020)

Journal Review

EMBO Journal; American Journal of Physiology, Cell Physiology; American Journal of Physiology, Regulatory, Integrative and Comparative Physiology; Journal of Brain, Behavior, and Immunity; Journal of Applied Physiology; Medicine & Science in Sports and Exercise (MSSE); Journal of Aging Research; Molecular Cancer Therapeutics; Stem Cells; PLoS ONE; Frontiers in Physiology; Frontiers in Aging Neuroscience; Acta Physiologica; AGE; Journal of Physiology; FEBS Letters; Journal of American Aging Association; Experimental Gerontology; Biomaterials; Stem Cells Translational Medicine; Aging Cell; Calcified Tissue International; Analytical Chemistry; Stem Cells

Professional Society Service

- 2012-2015 Appointed Committee Member, ACSM Strategic Health Initiative (SHI), Aging
2013 Organized and Moderated Session, ACSM Annual Meeting, “Sensing the tension: identifying mechanotransducers that regulate muscle growth”
2015 Organized and Moderated Session on Behalf of the SHI on Aging, ACSM Annual Meeting, “Statin administration and exercise in older adults – what are the risks and benefits?”
2018 Organized and Moderated Session, ACSM Annual Meeting, “Focusing outside the fiber: extracellular matrix and skeletal muscle plasticity”
2020 Organized and Moderated Session, ACSM Annual Meeting, “Exercise and extracellular vesicles (ExerVs): identification of the molecular basis for health benefits”

Public Service

- Judge, Illinois Science Olympiad, 2007
Board member, National Institute of Personal Trainers, 2008-present
Consultant, New Permanent Exhibit, Chicago Museum of Science and Industry, 2008-2009
Education Commission (School Board), St Matthew Catholic School, 2008-2014
Osher Lifelong Learning Institute (OLLI) Citizen Scientist Program Mentor, 2010-2011
Consultant, NASA, ProOrbis, development of the National Laboratory for ISS, 2010
Consultant, ClearView Healthcare Partners, 2012
St Matthew Catholic School – Public lecture about stem cells, 2012
Illinois News Radio Network WJBC Interview, Exercise and stem cells, 2012
Canadian Broadcast Company Interview, Exercise and stem cells, 2012
WILL-AM News Radio Interview, “Exercise for Life”, 2012
Illinois News Radio Network Interview, “Stem cells augment adaptive response to exercise”, 2014
Beckman Institute Open House, “Stem cells across the lifespan”, 2015

University Service
